3 Ways to control the Storm

128 bit Bluetooth driver tag

Safe and secure use of your OEM key, using 128bit encryption and our discrete Pandora bluetooth tag. Use your vehicle as normal, and simply keep your tag on your person. Easy!

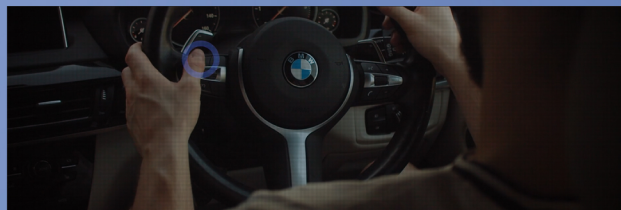

*Mini BT package can be purchased with or without a tag

Use your smartphone as your car key Tag

Using your smartphones Bluetooth technology to disarm your Pandora Storm Immobilizer system.

*iOS users will need to open the app to disarm the system.

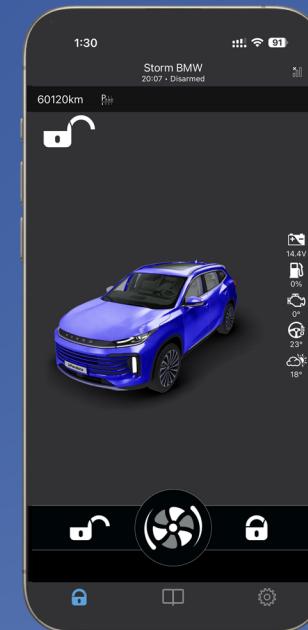

Or by entering a Secret code sequence using factory buttons

Use the buttons in your vehicle to disarm the Pandora Storm Immobilizer, by inputting a unique code sequence.

No need to carry any extra tags, or, add another layer of security.

*Only available on certain vehicles, please ask your authorised installer.
